I'm Feeling Lucky

Artistic, curious, trendy,  
hungry, etc ..

The I'm Feeling Lucky button skips the search results page and goes directly to the first ranked page for that search phrase.

Depending on your search query, the first result is usually the very best guess, so hitting the I'm Feeling Lucky button saves you a few extra seconds parsing through the list of search results.

## Google Voice Search

Google Voice Search or Search by Voice is a Google product that allows users to use Google Search by speaking on a mobile phone or computer, i.e. have the device search for data upon entering information on what to search into the device by speaking. [Wikipedia](#)

Developed by: [Google](#)

No matter what you're looking for, start with a simple search like **where's the closest airport?**. You can always add a few descriptive words if necessary.

If you're looking for a place or product in a specific location, add the location. For example, **bakery seattle**.

### Tip 2: Search using your voice

Tired of typing? Say "Ok Google" or choose the microphone icon to search using your voice. Learn more about "Ok Google" and voice search.

### Tip 3: Choose words carefully

When you're deciding what words to put in the search box, try to choose words that are likely to appear on the site you're looking for. For example, instead of saying **my head hurts**, say **headache**, because that's the word a medical site would use.

### Tip 4: Don't worry about the little things

- **Spelling.** Google's spell checker automatically uses the most common spelling of a given word, whether or not you spell it correctly.
- **Capitalization.** A search for **New York Times** is the same as a search for **new york times**.

### Tip 5: Find quick answers

For many searches, Google will do the work for you and show an answer to your question in the search results. Some features, like information about sports teams, aren't available in all regions.

- **Weather:** Search **weather** to see the weather in your location or add a city name, like **weather seattle**, to find weather for a certain place.
- **Dictionary:** Put **define** in front of any word to see its definition.
- **Calculations:** Enter a math equation like **3\*9123**, or solve complex graphing equations.
- **Unit conversions:** Enter any conversion, like **3 dollars in euros**.
- **Sports:** Search for the name of your team to see a schedule, game scores and more.
- **Quick facts:** Search for the name of a celebrity, location, movie, or song to find related information.

# Google Play store

The screenshot displays the Google Play Store interface. At the top left is the Google Play logo. To its right is a search bar with the text "Search" and a magnifying glass icon. Below the search bar is a vertical navigation menu with the following items: "Store" (selected), "Apps", "Movies & TV", "Music", "Books", "Newsstand", and "Devices". Below the menu are links for "My Play activity", "My wishlist", "Redeem", "Buy gift card", and "Buy Google Play credit". The main content area features a "Get Started" section with the subtitle "Browse our go-to apps". This section contains seven app cards: Pandora® Radio (Pandora), Facebook (Facebook), Instagram (Instagram), WhatsApp Messeng (WhatsApp Inc.), Messenger (Facebook), Netflix (Netflix, Inc.), and The Weather Chann (The Weather Channel). Each card shows the app's icon, name, developer, a star rating, and a "FREE" label. Below the "Get Started" section is a "Blockbuster Games" section with the subtitle "Essential gaming".

Available in most U.S. metro cities. [Terms apply](#)

### 6 accounts per household

Everyone gets their own login. Notifications when your show is on. Personalized DVR.

### Cloud DVR with no storage limits

Never run out of storage space. Stream your library wherever you go. Record simultaneously.

# Google Wi-Fi

## A new type of Wi-Fi technology

Google Wifi works differently than a traditional router. You set up multiple points throughout your home, creating a “mesh” network that delivers a consistently strong, secure signal.

### So long, dead zones.

Wifi points work together to create a connected system that gives you a strong signal throughout your home.<sup>1</sup>

 A consistently fast signal.

 A single network for all your devices.

# Google Wi-Fi

Since Wi-Fi is broadcasted from each Wifi point (and not just a single router), Google Wifi is a connected system that provides better coverage over a wider space. The system is flexible and scalable, so if you have a larger home, connect as many points as needed to get better Wi-Fi in every room (our 3-pack covers up to 4,500 sq. ft). Wifi points connect wirelessly, so you don't need to run Ethernet cables throughout your house.

[Learn more about mesh](#)

**We do the hard work, so you don't have to.**

Google Wifi's Network Assist takes care of things behind the scenes, so you can enjoy the Wi-Fi without fiddling with your router.

Always connects you to the fastest Wifi point.

Places you on the least congested channel.

Uses the fastest band for your devices.
