**FREE**

# *My Requirements*

Computer software:

- that does what I need, because...
- and price is reasonable, because...

# *What I've Found*

- there's software that costs \$\$\$\$
- there's software that's FREE  
and
- there's free software that I like  
better than other free software

# *Types of Software*

- CSS = Closed Source Software
- OSS = Open Source Software

# OSS

- Open Source Software
- Closed Source vs. Open Source Software; how are they different? **Recipes!**
- Open source developers are willing to share the code so that others can help re-write/improve the software (you can also donate to these people as well).

# *Types of Software (2)*

- PS = Paid Software
- FS = Free Software

# *Types of Software (3)*

- PCSS = Paid Closed Source Software
  - Proprietary
- POSS = Paid Open Source Software
  - Freeware and maybe Shareware
- FOSS = Free Open Source Software
  - Totally at no cost at all (marked w/\*\*\*)

# *Types of Software (4)*

- OS Specific – only works on one/two particular operating system (Window, MacOS, or Linux)
- Cross-Platform (X) – works on any of the operating systems
- **FOSXS: my preferred software**

## *Bottom Line = \$\$\$\$*

- Free programs may be missing some features.
- So far I haven't missed them, and you may not either.
- But if something is missing, then you decide if it's worth the total price of the program to have that missing feature.
- Start with the free program, if it doesn't meet your needs, purchase the paid program.

# *Operating Systems*

- Heart/Brains of it all
- Graphical desktop
- Lots of applications

Licking County Aging Program  
Licking County Computer Society  
Computer Teaching Program

Dear ,

We really hope that you enjoyed your first computer class, "Computers For the Total Beginner", with us. Jim Holton said that it was a good class and it seemed that you enjoyed your time with him learning to get to know the computer.

It is now time for the second computer class, "Everyday planning on continuing your classes with us and learning meeting in a couple of weeks and we want you to join us 17-19. The class will meet those Mondays, Tuesdays, and the cost is only \$20 for the 12 hours of instruction. The and review.

We're including the registration form for the class and a class. However, we sometimes take questions from the questions. After reading the description, we hope that you in (or take it in during one of our open times listed on the

**Everyday Computer Basics using Windows (Computer**

*This class (using Windows 10) is the second of our four require you take, or have taken, before you can take any quick review of what was learned in the first class and a the question, "What are the things we do everyday with computer work for me and not me working for the comp*

- Mastering the "START MENU" and customiz your computer, adding software, accessing/ust computer, and the Windows file system: where to organize your file system to work for you an

Looking forward to seeing your name on our class list.

John Kennedy,  
Director of the Computer Teaching Program  
Licking County Aging Program, with  
Licking County Computer Society

## This is Simplenote

Kind of great. It does plain-text but you can also knock your socks off with full Markdown support if you want to format your text.

There is no spell-check in Windows or Linux apps, but web, macOS, Android, and iOS get spell-checked by the system-provided spell-checkers.

Now, go back to reading the actual article if you please ...

# Welcome to Thunderbird

## Add-on of the Week: Dropbox for FileLink

Add Dropbox support to Thunderbird's Filelink feature.

Thunderbird's Filelink feature makes it quick and easy to send large attachments by uploading those attachments to various storage services and then inserting a link to the file into the body of your email.

## Another Blue Night - Snowy White & The White Flames

Something On Me

I have darkness in my heart  
 When the sun goes down  
 Black dog snapping at my heels  
 Every night the same old thing  
 Time is dragging like a broken wing  
 And I know how loneliness feels

Another blue night coming my way  
 It's another blue night  
 All this could be over in a moment  
 I could be safe from all this pain

My life could be mended  
 These black nights ending  
 If I could get my baby back again  
 Another blue night coming my way  
 It's another blue night

Another blue night watching over me  
 It's another blue night  
 And I can hear my breaking heart

**E** [Advanced Color Selector Panel]

The screenshot displays the Adobe Photoshop workspace. The main canvas shows a character illustration with a blue and white color palette. The interface includes a top menu bar (A), a top toolbar (B), a left toolbar (C), a right sidebar with panels like 'Advanced Color Selector' and 'Layers' (E), and a bottom status bar (D). A zoomed-in 'Overview' window (E) is also visible over the canvas.

**Welcome to Gramps!**
**Intro**

Gramps is a software package designed for genealogical research. Although similar to other genealogical programs, Gramps offers some unique and powerful features.
