

Driving an Electric Car From Maryland to California And Back

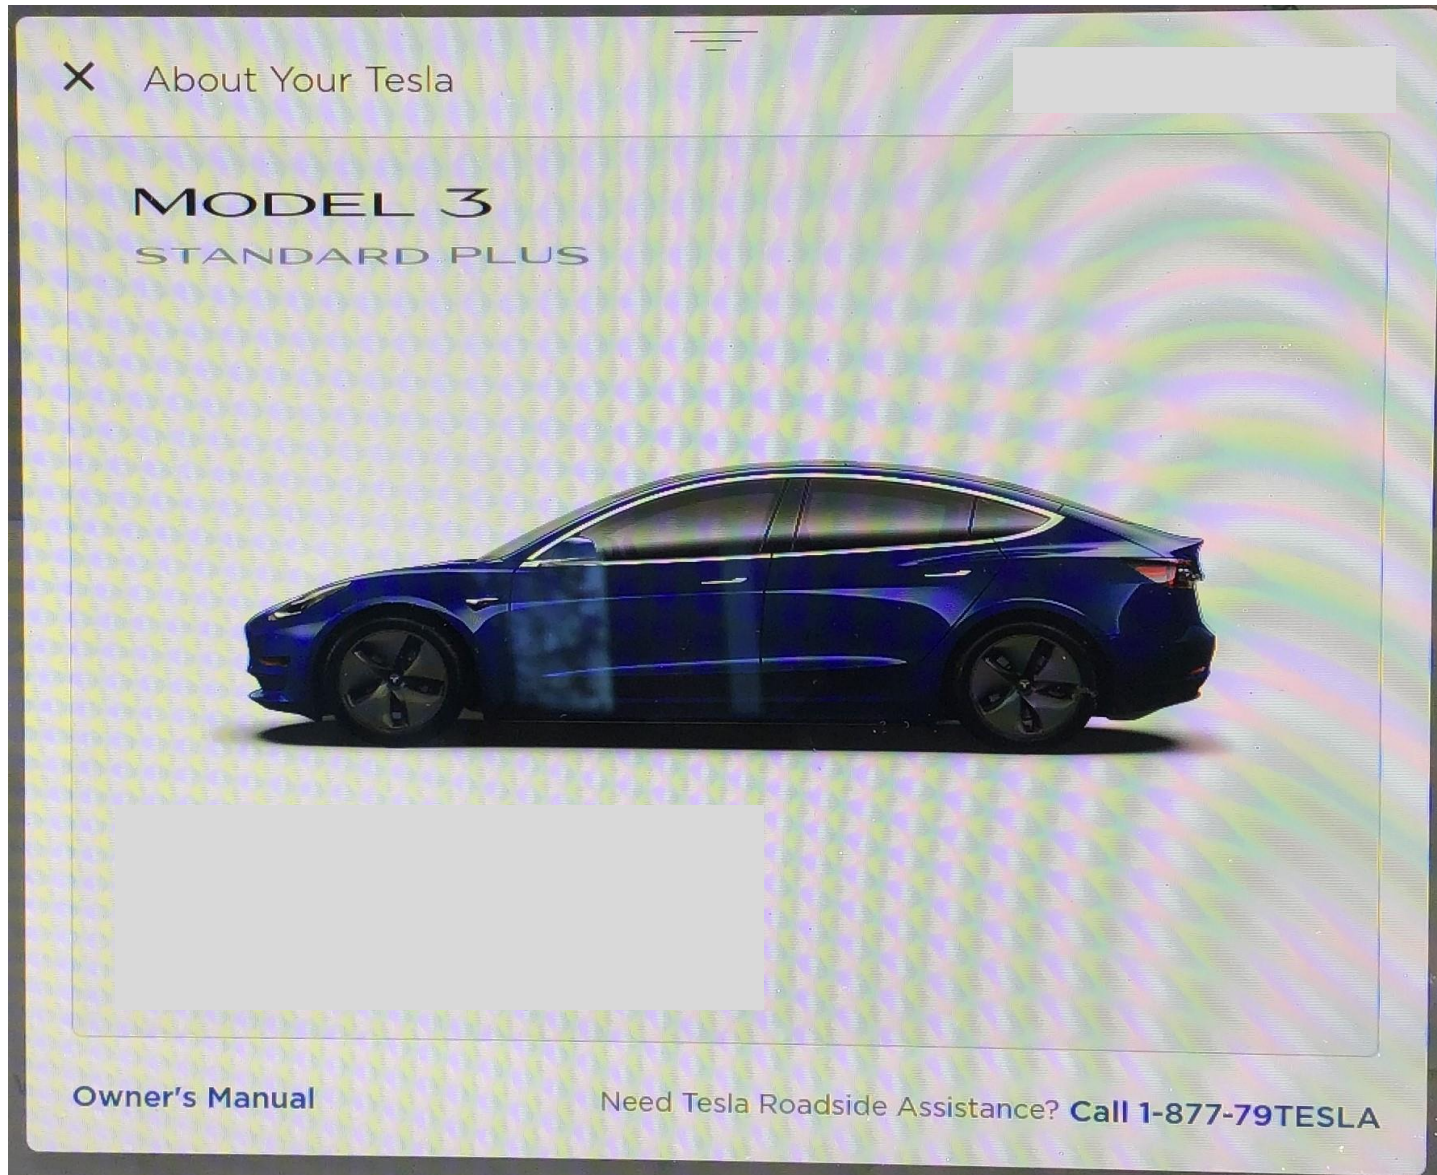

**Or, How We Spent Our
2019 Summer/Fall Vacation-
Between Superchargers**

Information

**Here's a QR Code of a WWW Dropbox URL
where you can get the slides whenever you want.
I'll show the QR Code again at the end of the talk.
No Dropbox Account needed to get these slides.**

Our 'Electric Conestoga Wagon'

Software Toys That We Used

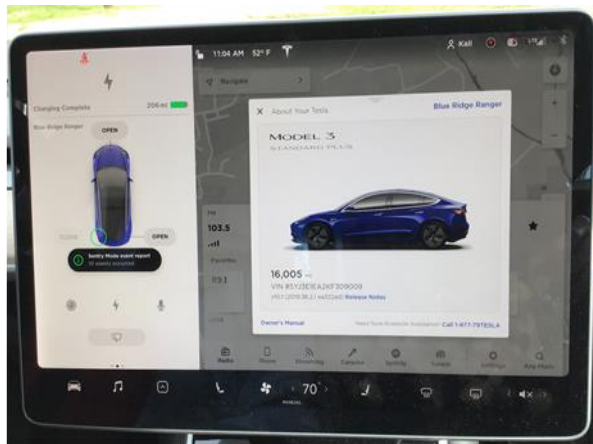

For, On, and After our trip, we used WWW Sites, Tesla SW, and Apps:

<https://www.tesla.com/teslaaccount>

A Better Routeplanner 3.8

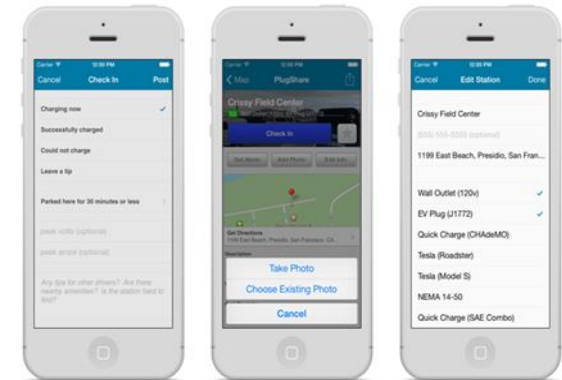

<https://abetterrouteplanner.com/>

Tesla Mod 3
Onboard Software (SW)

Tesla App
(iPhone, iPad,
and MotoZ4)

“PlugShare” App
‘Check In’ Feature
to provide real-time feedback
on conditions at Chargers

Our Route Planner

11,211,404 Routes Planned!

A Better Routeplanner 3.8

A Better Routeplanner (ABRP) for planning trips and charging with an Electric Vehicle - both home and in-car. **ABRP 3.8 - Better road speeds, better EV alternative routes - check out the [ABRP 3.8 Release Notes](#)**

Want to learn more and discuss ABRP? Visit the [ABRP forums](#), follow us on Twitter [@RouteBetter](#) or join our [Facebook Group](#).

If you want to order a new Tesla, feel free to use [the referral jennie6903](#) to get 1500 km of free supercharging!
